We do not expect all of our students to complete the same work. Projects start with teacher led activities to introduce students to new artists, concepts and ways of working. At this phase students are encouraged to make choices about activities and use of materials and to respond to source inspiration with developing message and meaning ideas.</p> <p>Students then have a solid foundation of inspiration to draw from to enable them to develop their own route through sustained investigation and to a personal response.</p>

These will be personalised to the students and promote diversity.  Practical activities have been selected to;</p>	<p>Teachers support this development through building close professional working relationships with students through regular one to one support and discussion, coaching students to take control of their creative journeys and Artistic development  In additional to timetabled curriculum time we also take every opportunity to organise relevant trips and experiences, which will enhance our student's knowledge and understanding of Photography and help them gain a wider perspective of the role of the subject.</p>
<p>Meet assessment criteria as set by the exam board.</p> <ul style="list-style-type: none"> <li>• Develop ideas through investigations demonstrating critical understanding of sources</li> <li>• Refine work by exploring ideas, selecting and experimenting with appropriate media, materials, techniques and processes</li> <li>• Record ideas observations and insights relevant to intention as work progresses</li> <li>• Present a personal and meaningful response that realises intentions and demonstrates</li> </ul>	<p><b>Rationale for this sequence</b></p>	<p>The order of lessons is carefully designed to teach students how to work within their sketchbook, following a sequence of artist studies and visual analysis, personal response and own versions. This builds over time to give students confidence to control their own progress and develop personalised and meaningful responses from the teacher led starting points.</p>	<p>The order of lessons is planned to enable students to be guided to produce personalised work that meets all of the assessment objectives. The sequencing during independent phases enable teachers to support students to work at a productive pace and meet deadlines.  The externally set assignment will also be planned and sequences by teachers to ensure students can respond effectively to the exam theme and develop a personalised project that can showcase their strengths and areas of interest.</p>	<p>Give students opportunity to explore a range of methods and materials.  To inspire a range of ways of working  To allow students to find their strengths and areas of specialism</p>			
	<p><b>How does the KS4 Curriculum build on</b></p>	<p>Photography is taught in KS3 as part of the Art curriculum, and gives students an insight into the subject as a separate discipline. Students learn about composition techniques and editing skills and tools.</p>					

understanding of visual language	<b>previous learning at KS3?</b>	KS3 Art provides a foundation on which many of the skills, knowledge and understanding involved in a creative subject can easily transfer into G.C.S.E. Photography. Students will have learnt about the formal elements, collage, image manipulation, engagement with artists and developing their own ideas. They will also know how to be resilient when developing new skills, and be able to creatively problem solve.
